Please complete and send this form by email or USPS to

CIRC, c/o Mike Dvorsky  
1813 W. Bel Aire Ave.  
Peoria, IL 61614  
[secretary@circpeoria.org](mailto:secretary@circpeoria.org)

Ship-in robots are limited to 5 pounds, including all accessories, and must be returned within the contiguous 48 states. Return shipping (to the builder's address given above) is a flat \$10, and will be UPS ground insured to a declared value of \$500. This is in addition to the \$20 registration fee. ***The total to be paid via PayPal for a ship-in robot is therefore \$30.*** (CIRC will absorb the portion of the shipping cost above \$10 in order to encourage ship-in robots.) If you want different shipping arrangements, please contact CIRC at the address above.

Please send your robot to CIRC at the address above. The robot, registration form, and payment (via PayPal) must be received by the online registration cutoff date of 4/3/2019.

Along with the robot, you must send any accessories necessary to operate the robot (battery charger, remote control, etc.) and instructions on the operation of the robot. If you provide a phone number above, we will call with any questions that arise on the day of the competition. Other communication will be via email.

Your robot must pass the weight and size inspection in order to compete. If it is deemed unsafe for any reason, it will not be allowed to compete. CIRC is not responsible for any damage that may occur to your robot in shipping, or during the competition. Please sign below to indicate that you agree to the terms stated in this form.
